May 18, 1992

Mr. Neal Bosshardt
Redmond Clay & Salt Company
370 South State
Redmond, Utah 84652

Dear Mr. Bosshardt:

Re: Notice of Intention to Commence Large Mining Operations, Redmond Clay & Salt Company, Redmond Clay & Salt Mines, M/039/002, Sevier County, Utah

The Division appreciates your cooperation and posting of the reclamation surety for your mining operations. In order for the Division to present your reclamation surety to the Board of Oil, Gas and Mining for approval, we must also have an approved mining and reclamation plan. The information received from Redmond to date, has provided some of this information, however, not enough to constitute a complete and approved mining and reclamation plan.

The Division Minerals staff would like to meet with you on site in order to inspect the mines and collect enough supplemental information to complete the mining and reclamation plan. We anticipate spending most of a day at your site and would appreciate your time (or one of your representatives) for a portion of that day. The dates which would best fit into our schedule are June 16 or June 18, 1992. Please notify us by calling or writing by June 1, 1992, as to which day you would be able to accommodate our inspection.

After formal approval of the mining and reclamation plan, and reclamation surety, the permitting process for the Redmond operations will be complete. Thank you for your continued patience and cooperation in this regard.

Sincerely,

D. Wayne Hedberg
Minerals Permit Supervisor
